

Survey Question:
 “Where was the **best place to get information** about your pregnancy?”

The “Top 10” most popular answers are:

Info on the survey:

- Mums now favour the broad range of information available on-line ahead of information from Healthcare Professionals. This is a relatively new trend driven by the growth in information available on the internet, the number of us using home computing and the instant access to information that the web provides
- See the survey ‘Pregnancy Remembered - Website’ for details of website mums rated as most useful
- See the survey ‘Childbirth - Books’ for details of which books mums rated as most useful
