

**Info on the survey:**

- The most popular item mentioned was the Pregnancy Pillow. Mums found the extra support helped with discomfort during the day and aided a better night’s sleep
- Foot products were popular with mums. The natural weight changes mums experience during pregnancy shift the centre of gravity and are a common source of aching and tired feet
- Unusual answer:
  - Several mums suggested, very kindly, that their husbands had been their ‘most useful item’ during pregnancy
